About me

Dedicated and detail-oriented Frontend Developer with 1 year of professional experience in developing responsive, user-friendly, and modern web interfaces. Proficient in HTML, CSS, JavaScript (ES6), and React.js, with additional knowledge of basic IT support and system troubleshooting. Passionate about clean code, continuous learning, and delivering high-quality digital solutions.

Experience

Frontend Developer

1 Year Experience

- Developed responsive and interactive web pages using HTML, CSS, and JavaScript
- Built reusable and modular components using React.js
- Implemented props, state, and component-based architecture
- Fixed UI bugs and optimized performance for better user experience
- Collaborated with team members to implement new features
- Assisted in basic IT support tasks, including system setup and troubleshooting
